

Dura Trac® Farrowing

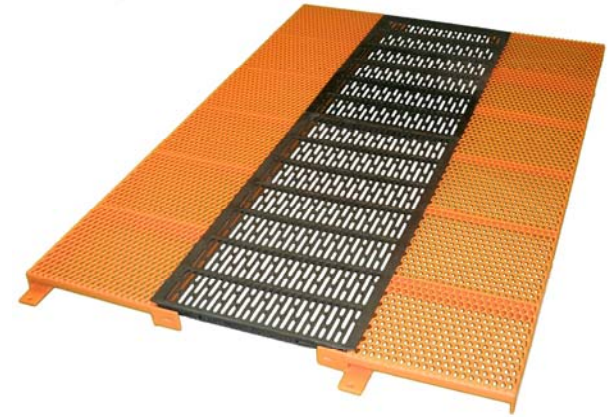

Dura Trac® Clearspan Farrow

- Completely self supported; no additional support necessary
- Two level construction—1" center rise reduces crushing and allows newborns easier access to under-side nipples
- 24" wide center sow area—Wide enough for sow, not so wide to lose advantage of raised center
- Wear areas are kept small and replaceable for minimal maintenance cost.

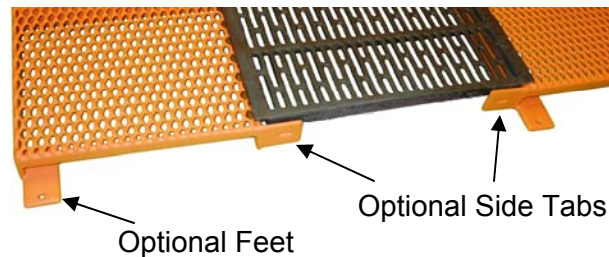

Dura Trac® Original Farrow

- Great for new building and replacement flooring
- Made to use with your supports
- Custom options offered such as perimeter rod, notching, and holes
- Dura Saver feed saver bolts on easily

Dura Trac® Clearspan Creep Sides with Cast Iron Center

- Completely self supported
- Cast iron center for cool and durable sow comfort
- Convenient options to customize the floor to your needs such as heat plate, notches, pad positioners, mounting tabs, and feet

Dura Trac® The Best Animal Flooring Available!

- Simple and efficient cleaning eliminates bacteria buildup
- Floors stay dry and warm
- Designed for traction to prevent floor related injuries
- Completely plastisol coated
- #1 for animal comfort and cleanliness

Dura Trac® sets the standard in quality built animal flooring
