Basic Clearspan Unit
(legs optional)
Sow Section

Dura Feed Saver

Standard sizes:
5'x6'6"
5'x7'
5'x7'6"

*Special sizes
and designs
available on
request*

Dura Trac® Clearspan Farrow Basic Unit is completely self supported. It includes a 1" center rise which reduces crushing and allows newborns easier access to underside nipples. The 24" wide welded rod center sow area is wide enough for the sow, but not so wide to lose advantage of raised center. The Dura Saver feed saver is a high density polyethylene floor with a diamond plate finish for added traction. Dura Saver hardware is included for easy installation.
